MVCS provides information concerning community learning opportunities, contests, and events through the MVCS website and through social media. Enrolled families also have access to an MVCS-compiled list of educators in the local community who are available to partner with parents in the education of their children. A directory of enrolled families is available on the MVCS website, with the option for parents to opt out of being listed.

MVCS provides regular field trips for students for enrichment activities. Parent workshops are also scheduled which provide networking opportunities and can help address areas of need (e.g. teaching multiple grade levels simultaneously, techniques for teaching writing, etc.)
