

# Is MVEP a good fit for my family?

## ***As a student, my child will...***

- “Do school” most of the week at home.
- Go to classes once or twice a week with other homeschool students.
- Enjoy friendly and welcoming classes that are small enough to allow for each child to be seen as an individual.

## ***As a parent I will...***

- Teach my child at home the way I think is best and at the pace my child needs.
- Use whatever curriculum I want and borrow some for the year if I like.
- Work with my child to make progress toward grade level expectations.
- Take full responsibility for my child’s schooling and follow the legal homeschool requirements.
- Really learn what makes my child unique as we learn together.

## ***As a school, MVCS will...***

- Create meaningful classes to supplement the work you do with your child at home.
- Help you shoulder the responsibility of homeschooling with excellence.
- Provide DIBELS testing for reading skills, so early intervention can occur.
- Provide NWEA testing to make sure your child is growing academically.
- Provide access to curriculum you can check out to use all year at home.
- Provide access to online educational resources.
- Provide parent workshops that help you be a good teacher for your child.

# MESA VALLEY Enrichment Program

a part-time program of MVCS for  
elementary grade homeschoolers

Info for grades K-6

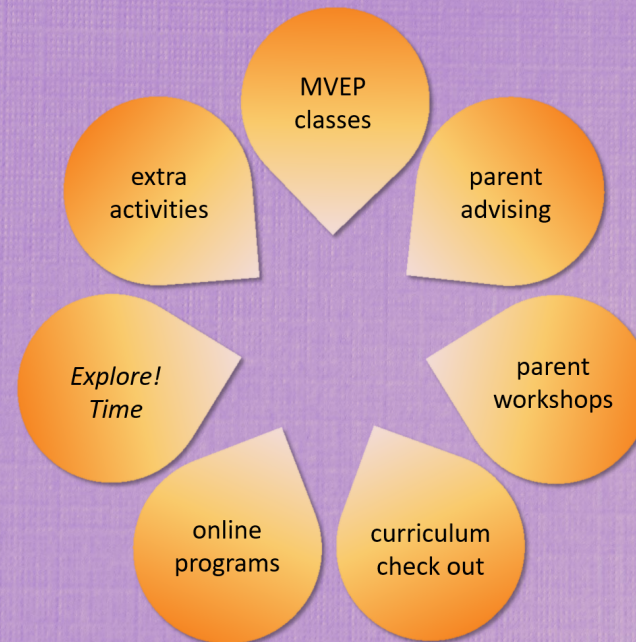

# MESA VALLEY Enrichment Program

- ❖ MVEP serves K-5 homeschool students and is a program of MVCS, a District #51 charter school.
- ❖ Children enrolled in MVEP must be registered as homeschool students *and also* be registered with MVEP as part-time students..
- ❖ MVEP classes are designed to provide enrichment activities and reinforce core academic concepts for homeschool students.
- ❖ Students enroll in one of two Tracks. Students may be in Track 1 or Track 2, but not both. 6<sup>th</sup> graders may only enroll in Track 2.
- ❖ TRACK 1 meets twice a week—Mondays 8:30-2 and Wednesdays 8:30-11:30. Each grade is in its own classroom.
- ❖ TRACK 2 meets once a week on Fridays 8:30-3:00 PM. Grades are grouped by ability level, roughly K-1, 1-3, 2-4, & 4-6.
- ❖ Classes to support struggling students are offered to all students who would benefit from a different format for instruction in a smaller group, oral communication support, or handwriting support.
- ❖ MVEP offers Explore! Time, an exciting change of pace that allows students to try a fun activity like skiing, rock climbing, gymnastics, dance, etc. at no cost to them. Explore! Time happens during the first 6 weeks of second semester. Friday Track 2 classes are cancelled and instead do the activity they signed up for. Track 2 students are required to participate in Explore! Time; Track 1 students may opt out.
- ❖ Students may participate in extra events like history/science fair and field trips.

MVEP creates opportunities for students by providing a connected community of excellence which draws on public school resources to meet the unique needs of the homeschool community.

We believe that personalized learning increases the likelihood of genuine engagement by students—especially when schooling supports the integrity of the individual and is initiated by those who know the student best, taking into consideration their strengths, weaknesses, and interests.

We believe each person is unique and must be encouraged in his or her individual search for fulfillment. Each person is also part of a community and must be encouraged in his or her search for common purpose and ways to serve.

We believe that children will grow toward achieving their highest potential when given a safe, nurturing, well-structured, and disciplined environment which balances genuine opportunity for student independence with thoughtful guidance, positive role models, and accountability.
